

TRELLIDOR
COTTAGE GUARD

TRELLIDOR COTTAGE GUARD

Trellidor Cottage Guard is our premium quality, fully framed burglar guard that is suitable for any window style. They are custom measured and made to either match existing cottage pane windows or create a cottage pane effect.

Manufactured from a combination of aluminium square tubing with a reinforced steel bar through the centre to help repel a determined attack, Trellidor Cottage Guard can be used in residences and commercial premises.

Trellidor Cottage Guard units require no welding and are bolted into the substrate of the window with coach screws to strengthen their resistance to assault. There are very few products on the market to challenge the strength of these burglar guards.

All Trellidor security barriers are manufactured at our ISO audited factory and are SABS approved.

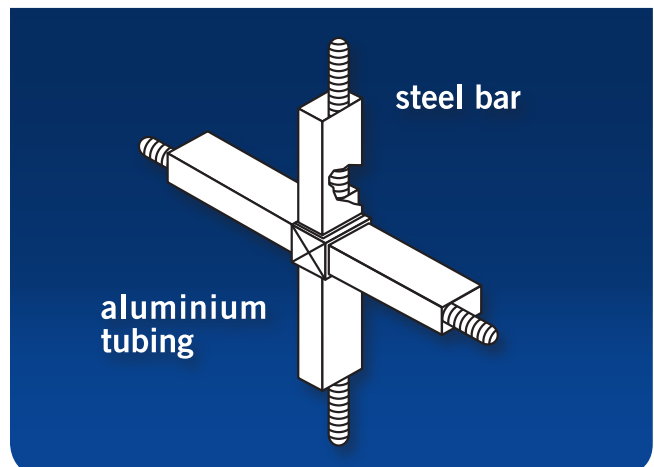

Trellidor Cottage Guard is our aesthetically pleasing, fully framed, fixed security option for windows.

UNIQUE BENEFITS OF TRELLIDOR COTTAGE GUARD

Trellidor Cottage Guard units are engineered to provide dependable security while still looking good.

They have a number of unique benefits:

- Seamlessly match existing cottage pane windows
- Create a cottage pane effect on featureless windows
- Openings are flexible in terms of size, but always comply with maximums allowed by insurance companies
- Fully framed for increased resistance to attack
- Increased strength due to combination of aluminium tubing and reinforced steel bar insert
- Guaranteed for 5 years against defective workmanship and corrosion, even at the coast
- SABS ISO 9001 certified
- Custom made and installed by approved technicians with no welding required
- Easy to clean and maintain
- Can be powder coated in a number of attractive colour options

PROTECTION AGAINST CORROSION

Corrosion is a real threat to security as it weakens security barriers. If properly maintained, Trellidor Cottage Guard is guaranteed in terms of quality and corrosion resistance even when installed at the coast. Our powder coating plant is state-of-the-art and includes a pre-treatment corrosion and UV resistant process. Ask your Trellidor Consultant about our recommended maintenance regime.

We can design Trellidor Cottage Guard to mimic cottage pane windows whilst complying with insurance requirements.

Trellidor Cottage Guard is custom made to fit each window, ensuring it's pleasing to the eye.

FINANCE AVAILABLE

We're all aware of the need to secure our homes against crime. Unfortunately lack of finances often means we have to compromise, securing only selected areas or using inferior products, leaving us vulnerable to break-ins. With the help of finance originators **Finconnect** you can apply for and structure a finance plan to make paying for your high-quality Trellidor security barriers quick, easy and affordable. You'll be able to secure your entire home immediately, leaving no defenceless areas for robbers to exploit. You choose your own investment amount and the most manageable repayment terms, extending your payments over a period that suits you.

As a conscientious consumer please remember that given enough time and the right tools, all security barriers can be breached no matter how well they're constructed. As a responsible manufacturer, however, we endeavour to design, engineer and install our products to give our customers the best possible security barriers the technology at the time allows.
